Criminal Justice in Scotland-Peter Duff 2018-12-12 Published in 1999. Scottish criminal law and procedure are very different from their counterparts elsewhere in the United Kingdom. This book is the first socio-legal account of the Scottish criminal justice process and its constituent institutions. Its aims are: to explain the operation of the various elements which make up the 'system'; to summarise the considerable volume of relevant Scottish research; and to locate this knowledge within contemporary theorising about criminal justice. To this end, the editors commissioned a team of experts to write chapters on the various stages of institutions of the Scottish criminal justice process. Given Scotland's broad social and cultural similarities to the rest of the United Kingdom, the book also provides a useful comparative perspective which should help to discourage the tendency towards overly ethnocentric theorising south of the border.

Elsewhere, he has made significant contributions as an academic, judge and as a member of the Scottish Criminal Cases Review Commission. Criminal Law Reform Now-J J Child 2018-11-29 If you could change one part of the criminal law, what would it be? The editors put this question to nine leading academics and practitioners. The first nine chapters of the collection present their responses in the form of legal reform proposals, with topics ranging across criminal law, criminal justice and evidence - including confiscation, control orders, criminal attempts, homicide, assisted dying, the special status of children, time restrictions on prosecution, the right to silence, and special measures in court. Each chapter is followed by a comment from a different author, providing an additional expert view on each reform proposal. Finally, the last two chapters broaden the debate to discuss criminal law reform in general, examining various reform bodies and mechanisms across England, Wales and Scotland. *Criminal Law Reform Now* highlights and explores the current reform debates that matter most to legal experts, with each chapter making a case for positive change.

Forensic Gynaecology-Maureen Dalton 2014-10-09 "This chapter has one chance to make a first impression on the reader. Similarly, the clinician has only one chance to make a first impression on the patient who has experienced domestic and/or sexual abuse, such that the patient has the confidence to disclose what has happened to her. . She or he may have taken months or years before feeling able to speak about what has happened, so it is essential that they experience a sympathetic, non-judgemental response from the clinician. Descriptions of the positive effects of an empathetic and non-judgemental responses have been given by two female doctors who themselves sought help following sexual violence and domestic abuse, respectively.^{1,2} This positive response also has the effect of validating the patient's experience of abuse. This chapter aims to describe the magnitude of the problem of domestic and sexual violence and abuse, and cover the important aspects of the initial contact between the clinician and the patient"--Provided by publisher.
