Eventually, you will unquestionably discover a extra experience and carrying out by spending more cash. nevertheless ... significantly cash? Why don't you try to acquire something basic in the beginning? Thats something that will guide you to

-Philip John Tyson 2019-12-20 Madness: History, Concepts and Controversies provides a comprehensive and critical analysis of current perspectives on madness. This book offers an introduction to some of the key theories and debates in the field, including the relationships between madness and culture, and the experiences of madness in different social contexts. The authors provide a detailed examination of the historical and cultural contexts of madness, including the role of medical and psychological theories, and the ways in which madness has been constructed and experienced by individuals and communities. The book also examines the impact of madness on individuals, their families, and society as a whole, and considers the implications of these insights for contemporary debates and policy. The authors are experts in the field, and their comprehensive and critical approach makes this book an essential resource for students, researchers, and practitioners in a variety of fields, including sociology, psychology, history, and cultural studies.

The New Black Good Samaritan: Religious Difference in a Secular Age challenges us to rethink the promise and limits of the secular ideal of religious equality.

content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate philosophy of ruthless ambition, secrecy, and marry-they-weren’t-scared volume. Until now. With内部视角, Golden Segrest's deep insight into external and former Amazon employees and Bezos's family members, giving readers the first in-depth, eye-witness account of the drama and intrigue behind Amazon. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

Sophie's World - Jostein Gaarder 2007-03-20 Every day Sophie meets her friend Ellin to discuss two questions she has left the post: “Who are you?” and “Where does the world come from?” Before, she has written to a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder’s unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

Deviance - Leon Anderson 2017-08-22 This sociology textbook draws on up-to-date scholarship across a spectrum of deviance categories, providing a symbolic interactionist analysis of the deviance process. The book addresses postmodern theories of deviant behavior, within a macro-reconstructing description of the deviance process that includes the role of deviance claims-makers, rule-breakers, and social control agents. Classic structural and historical reconstructions of deviance categories provides background for understanding external perceptions of and responses to deviance. The book is divided into four parts, focusing on introducing students to the sociology of deviance. A sociological approach to deviance is contrasted with popular views of deviants as demonic, mentally ill, and culturally exotic. The book's chapters focus on high consensus criminal deviance, with chapters on murder, high crime levels (property crimes), and white collar crime. Chapters in the deviant category address various forms of lifestyle deviance, including alcohol abuse, drug abuse, and sex work. Finally, chapters focus on categories of status deviance: mental illness, obesity and eating disorders, and LGBTQ+ identities.
